

Advanced Certificate in Testosterone Optimization (Part II)

Optimizing Testosterone Bioavailability

mindmap

```
root((Optimizing Testosterone Bioavailability))
  Pharmacokinetic Basics
    Absorption phase
    Metabolism phase
  Formulation Strategies
    Nanocrystal suspensions
    Transdermal gels
  Physiological Variables
    SHBG level
    Enzyme polymorphisms
  Clinical Implementation
    Dosing algorithm
    Safety monitoring
```
