

Professional Certificate in Renewable Energies (Foundation)

Solar Energy Fundamentals

mindmap

```

root((Solar Energy Fundamentals))
  Photovoltaic Technology
    Cell material types
    Module architectures
  Solar Thermal Systems
    Flat plate collectors
    CSP plants
  System Design
    Site assessment methods
    String sizing
  Policy and Economics
    Energy incentives
    Levelized cost analysis
  
```
