
Executive Development Program in Dam Safety (Foundation)

Why the Global Market is Paying a Premium for This Skill Set

Source: McKinsey Global Institute, World Economic Forum, OECD (2026)

Trend Driver | Why It Matters | Global Source

Climate-driven extreme weather events | Increasing dam failure risk forces utilities worldwide to invest in advanced safety expertise | World Economic Forum

Rapid urbanization in emerging economies | Growing megacities need reliable water storage, driving demand for qualified safety leaders | McKinsey Global Institute

Tightening regulatory and ESG standards | Investors and governments require certified safety governance, elevating professional value | OECD
