Trend Driver | Why It Matters | Global Source

Rise of IoT and Smart Devices | The proliferation of Internet of Things (IoT) and smart devices is driving the need for efficient and innovative digital circuit design. | World Economic Forum

Advancements in Semiconductor Technology | Breakthroughs in semiconductor technology are creating new opportunities in electronics, requiring a skilled workforce to design and develop advanced circuits. | McKinsey Global Institute

Increased Focus on Energy Efficiency | As global energy concerns grow, the demand for low-power and energy-efficient digital circuits is rising, making this skill set invaluable. | OECD
